

PARK MAMMOTH GOLF CLUB

Park City, KY

PROJECT OVERVIEW

In collaboration with Ross Golf Design, Craig & Coyne Golf Design completed a redesign of Park Mammoth Golf Club in Park City, Kentucky. The course opened to the public in April 2022. What started as a small renovation morphed into an entirely new course; boasting several re-routed holes and new greens, bunkers and irrigation system that enable the course to be playable and affordable for for the community. In addition, hundreds of trees were removed from the property to enhance playability and manifest long views of the bowl-shaped property. Park Mammoth Golf Club was ranked as the 5th best course in Kentucky by Golf.com.
